

Final Approval at PMMA try in

By signing below, the doctor confirms that the centric occlusion, design, and all necessary adjustments have been reviewed and approved. This authorizes us to move forward with fabrication of the final restoration arch(es).

There is a 3-day grace period from the date of signature to request any changes to shade or esthetics. After that, no further changes can be made. If a remake or re-mill is required after this period, a \$1,500 fee will apply.

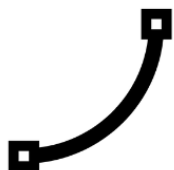

Please double-check the bite and shade before signing to ensure everything looks just right.

Shade guides are approximate, we'll match as closely as possible to the selected shade.

Doctor signature is required to begin final zirconia milling.
